

**Location:** Livingston  
**Term:** 6 months  
**Salary:** £20k (pro rata and dependent on experience)

FoundOcean is the subsea and offshore grouting specialist for the global energy construction industries. Its primary business is securing structures to the sea bed by foundation grouting. FoundOcean provides structural repair services for subsea and offshore structures, as well as pipeline and cable support and protection services.

FoundOcean, now a privately held company, was founded in 1966 and is headquartered in the UK. Its specialist subsea and offshore engineering equipment is located for rapid deployment in key energy producing areas of the world including Europe, the Gulf of Mexico, South East Asia and the Middle East.

Visit our website for more information at [www.foundocean.com](http://www.foundocean.com)

Following successful growth in the last three years FoundOcean is seeking an experienced Draughtsman who will be responsible for drawing up the details of FoundOcean machinery and producing drawings of all the associated parts involved.

Our ideal candidate will have previous experience working within an offshore organisation (although not essential) and will also:

- Have a relevant Technical Engineering qualification from HNC level and above
- Able to understand architectural drawings and specifications.
- Be familiar with drawing transmittal & web based document control procedures.
- Possess working knowledge and experience using ProEngineer/Creo
- Be well organised, logical and methodical in your approach to work

In this role, you will be expected to;

- Carry out site measurements/surveys and assessment of FoundOcean's machinery
- Review customer's specifications, providing technical layouts, details and estimates in support of tendering and quotation activities.
- Creation of accurate technical documentation correctly representing engineering design intent and ensuring accuracy is realised across the department. i.e. technical drawings and parts definition
- Create and modify 3D models using ProEngineer/Creo

The role will report to the Engineering Director and will be located at our service base in Telford Square, Houstoun Industrial Estate, Livingston.

For the right applicant, there is an attractive remuneration package on offer.

Please apply in writing with CV and covering letter to FoundOcean Ltd, C/O Gravitare HR, 14 India Street, Edinburgh, EH3 6EZ or by email to [hr@foundocean.com](mailto:hr@foundocean.com)
